

Clinician Specialty Attestation

To add or modify your area(s) of attested specialty(ies):

- Complete and sign this form
- Return the completed form and any requested supportive documents to your Optum contact.
 - To find your Optum contact, go to providerexpress.com > Contact Us > Network Management > Network Management Contact Information and select your state
- If you have any questions, contact us at 1-877-614-0484

| Clinician Name: | | CAQH# | |
|-----------------|------|--------|----------|
| Phone: | Fax: | State: | License: |
| NPI# (Type I) | | | |

- You must sign this document if you are requesting any of these specialty designations be added or modified in your provider record.
- Additional training, experience, requirements, and/or outside agency approval is required for the following populations, professional certifications, and specialties.
- Please review Specialty Requirements on pages 5 8.

I have reviewed the Optum Specialty Requirements criteria that a Clinician must meet to be considered a specialist in the following treatment areas. After reviewing the criteria, I hereby attest that by placing a check next to a specialty or specialties, I meet Optum requirements for that treatment area.

| Physician Specialities |

| Employee Assistance Program (non-prescribers) |
|--|
| An Employee Assistance Program (EAP) is a health and wellness service provided by an employer. A member receiving this service has no financial responsibility– no deductible, co-payment, or coinsurance amount. EAP is designed to provide assessment and referral, as well as a brief counseling intervention for Members and/or their families. All Optum-contracted therapists are allowed to provide and bill for EAP services. All Optum in-network therapists are expected to support and accept Members who request an EAP benefit (in compliance with your Agreement). (There are limitations around the use of EAP benefits with prescribers.) You must select an area of expertise for EAP from the list below or select the "Not Applicable…" box if you are a prescriber: |
| Not applicable. I am an MD, Registered Nurse, Nurse Practitioner or Physician Assistant with prescriptive authority. |
| I provide Employee Assistance Program services – By checking this box, I acknowledge that, as a contracted Optum therapist, I am expected to support and accept Members who request an EAP appointment, in accordance with my Agreement. |
| Providers who have additional EAP training or certification may attest to meeting requirements shown below and be designated with the expertise in Optum's online provider directory. If you meet the requirements of either of the two designations shown below, select the one you meet. NOTE: neither of the two designations listed below is required in order to provide EAP services. |
| Certified Employee Assistance Professional (submit Certificate from the Employee Assistance Certification Commission) |
| Employee Assistance Professional requires: Minimum of two (2) years' experience in the delivery of EAP core technology as defined by EAPA, and |

 Minimum of one (1) annual training (CEU credits or professional development hours) in any of the eight (*) EAP content areas

No Specialties (must be checked if no other specialties are being designated in this Optum Specialty Attestation section)

I understand that Optum may require documentation to verify that I meet the criteria outlined under Specialty Requirements pertaining to the speciality or specialties I have designated above. I will cooperate with an Optum documentation audit, if requested, to verify that I meet the required criteria.

I hereby attest that all of the information above is true and accurate to the best of my knowledge. I understand that any information provided pursuant to this attestation that is subsequently found to be untrue and/or incorrect could result in my termination from the Optum network.

Please note that standard credentialing criteria must be met before specialty designation can be considered. All clinicians must sign this form whether specialties are applicable or not. Failure to sign this form may cause a delay in the processing of your initial credentialing file.

I acknowledge that I have read the Agreement, Network Manual, and, if applicable for my state, the State Regulatory Attachment, Medicare Regulatory Attachment and/or Medicaid Regulatory Attachment.

Printed Name of Applicant:

Signature of Applicant

Signature stamps are not accepted.

Important Note: Signature on the Optum Specialty Attestation page is required of all applicants
